## 26DB

This is the perfect family travel trailer for the campground or going off the grid! This unit has a front walk around queen bed, and large double over double rear bunks with an abundance of storage for the whole family. The large dinette and jack knife sofa both fold into sleeping areas so you can easily sleep eight people. The kitchen features a residential stainless steel single bowl sink with a pull down sprayer faucet, seamless countertops, and an oversized residential 10.7 cu. ft. refrigerator. The exterior has dual entry doors, a large pass through storage, and the conveniently located Shasta Sanitize Station. The 26DB is simply an amazing trailer for family fun.

## 20RB

You will be amazed at how much the 20RB has to offer in a small, affordable, and extremely lightweight travel trailer. Easily sleep three with a front walk around queen bed, and jack knife sofa that folds down into an additional sleeping area. The mid kitchen offers an extended countertop, and our standard stainless steel sink. The entertainment center is perfectly located for your enjoyment anywhere in this unit for those rainy days. Storage was one of the top priorities in the design of this trailer. Next to the residential 10.7 cu. ft. refrigerator, there is an oversized pantry for all your camping needs. There are additional storage areas under the sofa, queen bed, and large exterior pass through storage. With an outside refrigerator, outside shower, and Shasta Sanitize Station you will have more time to spend enjoying the great outdoors!

- Color Matching Entry and Baggage Doors
- Decorative Cabinet Pulls
- Shower & Surround
- Pre-Wired for Wi-Fi
- LED Light Above Slide-Outs
- Roadside Assistance
- Magnetic Baggage Door Catches

**SPECIFICATION DEFINITIONS**

**GVWR (Gross Vehicle Weight Rating)** - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

**GAWR (Gross Axle Weight Rating)** - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

**UVW (Unloaded Vehicle Weight)** - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

\*Estimated Average based on standard build optional equipment.

**CCC (Cargo Carrying Capacity)\*\*** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

\*\*Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

## TAKE IT ALL WITH YOU!

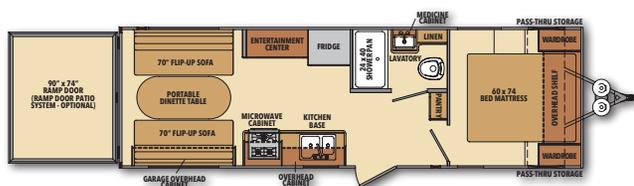

Whether you are taking off to enjoy the highways and byways of North America, or playing in the dirt at your favorite recreational spot or just wanting to enjoy time spent with family and friends at the stadium, Shasta Toy haulers allow you to take it all with you.

**WE GIVE YOU MORE...** More garage storage, more cargo carrying capacity, more tire load, more refrigerator space and more room under the awning, than the other competitors. Shasta gives you more value!

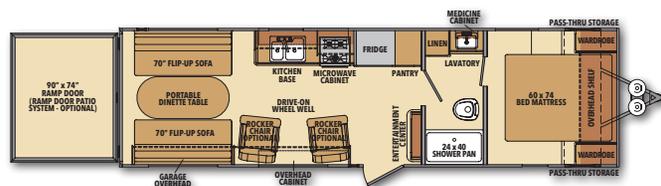

### OPTIONS

The Shasta toy hauler enjoys all the same standards and options as the travel trailers with the following additions:

- Ramp patio door system
- Patio screen wall
- Toy Lok
- (2) swivel rockers (260TH only)
- Flip up sofa over wheel well (260TH only)

## IS BUILT TO LAST!

Every Shasta is assembled with the pride and quality craftsmanship you would expect from a brand that has been building trailers since 1941.

Only the best materials and construction methods are used during the manufacturing process. Every unit is put through a rigorous inspection procedure and is tested to ensure the highest of standards.

We utilize premium wood products like 2x2 wall studs on 16" centers, 5/8" thick tongue and groove plywood floors, not chip board! The 5" wood roof trusses support a full walk on 3/8" roof decking wrapped with a seamless PVC membrane that has a 20 year limited warranty against defects.

Rest easy and rest assured your Shasta trailer is built right and built to last!

# THE SHASTA STORY - A PROUD HERITAGE

In 1941, when Californian Robert Gray built the first Shasta "house trailer" to be used as mobile military housing, he had no idea his homes on wheels would play a major role in establishing a billion-dollar industry. Or that the little trailers would spark wanderlust in Americans that would carry them across the miles and into the next century. Shasta was, and remains, an important player in the ultimate American Dream; the freedom and desire to roam, explore and enjoy well earned leisure time with the people we love.

In the 1950s and 60s, the toaster-on-wheels look of the original Shasta trailer was the most recognizable shape on the road. There were other RV brands, but only Shasta was distinguished by those wings that signified flight and freedom. Through the 1960s and 70s, RVs became bigger and better, America's burgeoning highway system evolved into interstates, and the wanderlust grew ever stronger. In the 80s and 90s, RVs continued to evolve into safer, more sophisticated homes away from home, with more features and greater comfort than ever.

Today, 70 years and three generations of Shasta owners later, Americans have the desire to travel like never before. Motivated by the rediscovery of our families and renewal of ourselves, we still respond to the call of the road.

In terms of product, the company has come a long way from the "toasters-on-wheels". Today's Shastas have sleek profiles and amenities that were unimaginable a generation ago. Yet, it is the memorable image of the little trailer with wings that brings each of us something no other manufacturer has to offer: nostalgia.

As the industry's longest producer of recreational vehicles, Shasta has manufactured hundreds of thousands of RVs. We've earned our success in the best possible way - through experience... more experience than any other RV company in the world. Shasta's respected name prevails in today's fast-moving RV industry because of that experience, combined with a strong, service oriented dealer network, a loyal, repeat-customer base, and our outstanding association with our parent company, Forest River. Shasta is proud of its longevity, and we pledge to continue to listen and to improve our commitment to satisfying America's wanderlust, and to persist in creating generations of memories to come.
